It was this which had finally decided him. His new wealth was hot as live coals in his pockets, and a gent which had spent six months in the brush craved something more exciting than bare walls to look at.

He wasn't laughing now, The bleary eyes, regarding Charlie's fine clothes, suddenly flared with a savage recognition. Drunk and unmistakably ugly he thrust his glowering face into Charlie's, grabbed a fistful of shirtfront and, wheeling, slammed Medders furiously against a wall. "Ye pussyfooting crook! I've a mind," he snarled, "to take it out of yer hide!"

Medders, too breathless and shaken for speech, had enough red fox curling round through his makeup to know the better part of valor held no brief for broken bones. Going limp and loose in every joint he hung from the assayer's brawny grip looking pitiful and wilted as a yanked-up flower.

Startled, O'Toole peered down at him astonished. Snarling with disgust he pitched the sagging weight aside to stare drop-jawed and ludicrous as Medders, bounding to his feet struck off into the coagulating shadows with no more ado than

a departing mosquito. With a shout of rage the big Irishman took after him. Medders, hearing the plung-

ing strike of those boots banging nearer and louder at every heart jolting stride, didn't need any diagrams to guess what would happen if those whopping great fists laid hold of him again. McFarron, he reckoned, must have grabbed all that ore.
O'Toole, at the very least would clean Charlie's pockets. In his present state of mind the man might cripple him for life!

#### Liston Jailed on 2 Counts at Denver

(AP) — Former DENVER heavyweight boxing champion Sonny Liston was arrested Tuesday night by a traffic officer wh said Liston was driving 76 miles an hour in a 30 mile an hour

Patrolman James Snider said after stopping Liston's Cadillac he found in a search of Liston that he was carrying a seven shot .22 caliber pistol with six cartridges and an empty shell.

Snider, alone when he stopped Liston's car, said he had to call another patrol car for help in handcuffing Liston "when he be-came belligerent." He was taken in handcuffs to police headquarters.

Snider said he charged Liston with reckless and careless driving, speeding, carrying a concealed weapon and driving without a valid Colorado operator's license. Liston was booked at the jail but gained his immediate release by posting \$300 bond. Snider said.

The officer, 5-foot-10, 185pounds, said he didn't know who Liston was "until I got down to headquarters and one of the other officers who knew him. said 'Hello Sonny'."

Snider said another person in Liston's car was not taken into custody and drove his car away. Snider said he didn't know his

identity. The arrest took place on East 17th Avenue within a mile of Liston's residence in East Denver. Snider said Liston offered no

## The Lighter Look Arrives for the New Spring Season

What's right in men's suits, slacks and sports coats for spring? Light! Colors will be lighter than ever, brighter than ever, and patterns will be bold-

Texture, too, will play an important role as will the newer stretch fabrics that show up in sports jackets and suits as well as slacks.

Don't look for the dark greys and tans. What was once called medium is now the darkest shade. Navy blue is about the only dark tone to be seen.

Grey will be the color leader, especially in the blued-greys, Tans look newer in taupe, putty and clay.

There are several news items worth noting about hosiery for this season.

First is the all-in-one pantie stocking or girdle with detachable stockings. With the swing towards soft, easy skirt lines in dresses and suits, girdles are not always a must. The pantie stocking will fill the bill and very comfortably.

In this "natural" hosiery pattern. Cross-dyes, compound and the textured stocking is showing up here, too.

Coats will be a popular fashion item on this early Easter morning. Gilt-buttoned coat (left) is influenced by the military in its dashing spirit, but it's ever so feminine in its soft pastels. Two of the pockets are "pretend," and two authentic. Anglo's monotone nubby wool tweed is used in

this design. The elegant reefer returns (center) with a velvet collar. Coat is in flat-surfaced wool twill. Both coats are by Henry Friedricks. Perfect for the Easter parade is this tie-belted coat (right) with dramatic cape effect. This Zelinka-Matlick design is sleeveless.

# **Curls Unfurl** in Hairstyle for Spring

Look for curls a-head in spring hairstyles for 1964! Hair has been following a straight line for several seasons now, but the prediction for spring is for curl, according to top hair-stylists in New York and Parls who are insisting that spring hairdos must be wayed and curled, softly feminine to con-trast with the unfitted, untrimmed clothes.

And what are women doing about these fashion edicts? The Toni Hairstyling Center reports that they they are edging away from the very straight hairdos, adding just a hint of a wave and some curls. But the curls they choose are more like the smooth hairstyles of today than the tight curls of the past.

Waves are wide and shadowy. suggestions rather than definite ripples on the scene. Curls are soft and full, with as much curve as curl. Only the ends of the hair are curled, and frequently this is a flighting touch quently this is a finishing touch to the top of an up'do.

With the changing trend to more curl, every women now has an opportunity to choose a becoming hairdo with as much or as little curl as she wants. And to help her achieve it, there are now home waves for every hairstyle from smooth and silky to sculptured curves, or for real, rounded curls. Read the package labels carefully to be sure you're selecting the one that's right for you. Then se-lect your home permanent curl-ers with an eye on their diam-

FOR TRAVEL OR TOWN, the New York Coat & Suit Association, Inc. suggests selecting a suit with a matching topcoat. The outfit shown here features a cardigan-collared, matched suit with topcoat of all wool, monotone, nubby tweed. The hiplevel suit and ragian-sleeved topcoat each may be purchased separately.

## Millinery Picture Is **Brim Full**

The millinery picture is 'brim-full' in news for spring. Look for different ways with the brim — wide in front and smaller at the back, or vice versa. You'll see it casting a shadow all around as well.

Brims will be on a medium scale, but in importance, they are truly big.

The crown also shapes up in proportions with the high derby shape vying for a top spot.

There will be many prints in the fabric movement as well as sheers, silky textures and both straws and felts that

are both rough and smooth. Trimmings will be in line with the softer look of other fashions this season. There are many drapings, shirrings, fabric-on-fabric trims.

Colors of course come right out of the same vats as prettiest dresses, coats and suits. Rights will be a costume and hat in the same color, one just a shade or two darker than the other, but both on the lightened side.

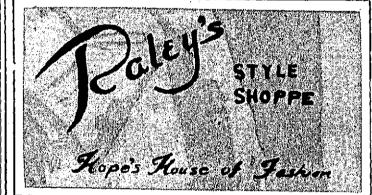

Fashion's more feminine look really calls for a hat and millinery is ready with the loveliest collection ever.

Black is still the favored color in smooth and grained leathers, but deep browns are a close second. In casual or school shoe, black and brown are joined by bronzed leathers or chino. In the brushed leathers, colors like sand and gray are seen frequently.

#### Big Mix-Up Planned for **Smart Gals**

It's fun to be a Mixer, and if you don't agree, you will after you see the big mix that's taken place among many of spring's newest fashions.

Remember when it was strictly taboo to mix dots with with stripes — or worse yet to mix a flower print with stripes and dots. Well, this season it's the way to do things smartly, if you are artistic enough to

know when to stop.

But for those who know when to stop, but not how to begin, there are dresses rightly blended with these patterns just waiting for you to add a new headband or scarf that plays up this mixed up idea.

FADS AFOOT

Among the fads are off-side straps — in pumps and flats. Quilted and woven leathers are seen in cool colors, and patent leathers in vivid greens and reds or paled pinks, blues and grays. In genuine patent leather, black and white will continue to score top grades.

Other fads - the kind that give you an airy look without costing you handsome shoe leather — are large perforations, the use of under and overlays to provide color, and leather texture contrasts. In both dress pumps and casual flats, portholes on vamp and sides are part of the teen's "open look",

once a month. This is important, if for no other reason,

After these details are taken care of, a lady is ready to plan her wardrobe. And here is where so many gals can go astray.

Your wardrobe plan must be much more than a list of what you want to buy. Every sound plan is made with a goal in mind.

must begin with a philosophy, or at least an understanding of what "look" you want to achieve for yourself.

If you are the outgoing, flambouyant type, admit it and then decide if you want to play up that part of your personality or if you would rather contrast it by dressing more conservatively. The decision must rest with you and how you will feel most comfortable.

Remember that whether you decide to follow the look of the extrovert, or the look of the i⊯rovert, or the look of the little girl, or the mature woman — it is not necessary to be extreme.

Extra-short skirts, low cut daytime dresses, and froufrou look flambouyant, but not pleasing. Simple styles in gay colors or dressed up with exciting accessories can bring off the same feeling, and do it in a much more acceptable and charming way.

There are several things you can do to increase your fashion sense. Studying fashion articles is one; shopping in the better stores is another (whetehr you can afford to buy or not); and keeping an eye on what other women are wearing is another.

The next part of your plan ngist be coordination, unless you can afford more clothes than the average woman. Even here, the world's wealthiest women coordinate their wardrobes.

How to coordinate: Plan what you need. For example, if you need a coat for town wear, don't pin it down to a "navy blue wool" until you have planned the rest of your ₩lrdrobe.

Perhaps you need a dress that is suitable for a daytime party or a casual party afterive. Do you have a coat suitable for that occassion. Then maybe you can select a coat that will be as suitable for this type of occasion as for the needs you had in mind for that town wear coat.

Work out your entire list of Eshions needs based on the needs and then when you go shopping you will be guided but not tied down too much.

To get more mileage from your wardrobe, plan so that each garment can be worn with more than one set of accessories. Another way to boost your budget is to keep the more expensive items sim-

ing new nests. People shake off the winter doldrums and undertake new projects.

Spring is a good time, then, to start afresh in the way you dress or at least to give your dress or at least to give your dress. dress, or at least to give your present wardrobe a good look with an eye to its beauty and sure that you will feel suitability.

# Light, Airy Coifs Emerge This Season

Wave goodbye to hair that's tangled with teasing and stiffas-cardboard with lacquering! In their place, get ready to welcome back hair soft as a spring breeze, with feminine waves and curls to flatter the features.

This is the word from the Lill Reference Service in its forecast for spring 1964.

These light and airy coifs will make their appearance to go hand-in-hand with the free flowing lines of the spring fashion picture. A - line silhouettes, empire waists and straight up and down shifts all call for pretty, natural looking hairstyles.

With this in mind. Julius Caruso, style consultant for Lilt home permanents, suggests a body permanent that controls the hair while giving it bounce.

For those who home wave, there is a selection of home permanents for every type of hair. Soft waves and curls spring up from the new milk wave, while the push-button foamy type lets you control the degree of the curl by the timing.

Follow the directions care-

fully and the results will be a feminine crown of curls and waves that welcome the spring

# **A Pretty** Look to **New Shoes**

The "pretty look" arrives with the pretty flowers this spring, as soft clothes with a romantic air dominate the fashion scene. Light, airy and understated, the new leather shoes take naturally to this focus on feminity, reports Shoe Fashion Service of Leather Industries of America.

Popular in city or suburbs, the "pretty look" means pumps, flats, walkers, slingbacks in easy, fluid lines. It calls for sun-drenched colors -in single and multi-color effects. interpreted in leathers walk naturally, hold shape gracefully and look fresh after hours of wearing. It is seen in smooth and suede leathers, grained and brushed leathers, waxy and patent leathers - all made into feminine, footflattering shoes.

The opened-up effect of clos-ed-toe open-back or open-side shoes are part of the new spring look at ground level. Large portholes on vamp or sides, slim sling-back straps or large vents at the sides are among the popular variations on the open effect.

Woven leathers, perforations, embroidered designs on the vamp and toe are other ways of lightening the shoe without away large pieces. Smooth leather linings cut down on friction and stocking runs.

But girls take to little girls' styles this year in a huge variety of strap shoes. The changes rung on the simple strap shoe include asymmetric that lasts. straps. T-straps that connect at all points of the shoe and wide sabot straps. Set on mid feminine strap shoe is a far easy-walking leather shoe.

#### CASUAL FOOTNOTES

In casual footwear, led by moccasin flats and moccasinfront walking shoes, you will see every type of leather. From multi-colored genuine patent leather flat to handsomely grained leather walking shoe or waxed leather "penny" moccasins, casual leather shoes spell comfort and grace. Brushed leather — in flats

and occasionally in boot-shoes is a casual favorite. In keeping with the trend to lighter casual shoes are made up in brushed split leather.
